October 2022 Tech Tips

Current Church Windows version 23.21.2/ Payroll 2022 SR5

Version 24 is Coming Soon!

Version 23 introduced a Payroll button on the opening screen of Church Windows with “Coming Soon” over the button. We are testing Version 24 and getting it ready for release soon. The Payroll program, which until now has been a separate install, will now be within the main Church Windows program. In preparation for the enhancements and features now offered in Payroll, we have a webinar to show you the new Payroll module. We also will be conducting live webinars if you prefer that. Check out the video or sign up for a webinar below.

Tools & Templates to Turn Visitors into Members

As you welcome members and visitors back to church this fall, we want to make sure you have the resources you need to turn visitors into members. Vanco, Church Windows’ integrated eGiving partner, has put together [a kit with tons of free templates and welcome materials](#) as a starting point to help you expand your membership. Start turning newcomers into members today!

System Requirements

Before installing Version 24, review the system requirements and ensure your computer is up to speed. Now is a great time to ensure your computer is current and meets the system requirements to run the program smoothly. Take a look and make sure you are up-to-date now, so when we release Version 24, you will be ready to install and enjoy all the new features and enhancements.

Emails and Changes

Church Windows utilizes Constant Contact to communicate important information to our users. **DO NOT UNSUBSCRIBE FROM CHURCH WINDOWS EMAILS THROUGH CONSTANT CONTACT!** If you unsubscribe, you will not receive any of our emails, **including updates and service releases**. To ensure that you receive updates, news, tech tips, and other important information from Church Windows, take a moment to make sure we have the current email and contact information for your church. This can be done by emailing info@churchwindows.com with your current contact person and email address or calling 800-533-5227 to verify your current contact information.

Backing Up

Unfortunately, many customers who suffer data loss could have prevented this with routine backups. Please remember to regularly make backups of your data using the Backup function within Church Windows (Administration -> Backup.) Back up often to prevent having to re-enter data! While a third-party backup provider is often helpful for system backups, some of our customers who have lost Church Windows data found that their third-party backup was not functioning as expected. A secondary backup never hurts, even if your data is hosted on Church Windows Web.
